

INNOVATION HAS A NAME

MeshGuard™ Safety Fence

2026

Fence MeshGuard™

Designed to provide complete protection around your pool or any body of water, the MeshGuard™ fence delivers a reliable barrier while remaining discreet, refined, and seamlessly integrated into your outdoor space.

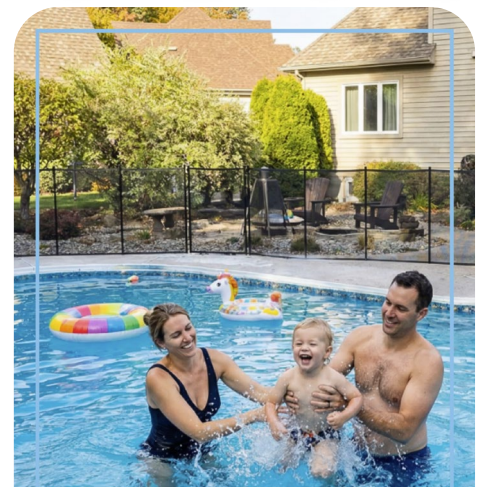

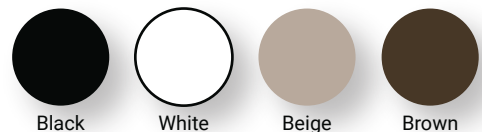

Manufactured with ultra-durable synthetic resin panels, it is engineered to withstand the extreme temperature variations of northern climates without compromising strength, performance, or appearance.

Certified to ASTM F2286-16 standards and featuring a permanent anchoring system, this fence meets the stringent requirements of municipal regulations for pool and water safety.

Available Colors

Fence sections, posts, gates, and accessories are available in **four modern colors**, designed to seamlessly complement your landscaping.

- Highly affordable solution
- Compliant with pool and water safety regulations
- Adaptable to your specific needs
- Sleek and discreet design
- Installation without major groundwork
- 5-year warranty
- Trusted product in Quebec for over 30 years

The simplest and most affordable way to secure your pool

Built to last in our climate
